TYPES OF AGGREGATES:

1. Large collections of journal titles: multiple publishers; variety of content. Examples: OCLC First Search
2. Aggregates of scholarly journals: multiple publishers; full text. Examples: JSTOR, MUSE
3. Publisher Packages: single publisher; full text. Examples: Springer LINK, Wiley InterScience
4. Hybrids: may have multiple publishers; and/or multiple content. Example: Elsevier’s ScienceDirect
5. Other...

 Below is a brief survey about your library’s strategies for electronic packages/aggregates:

1. Please indicate the area in which you work (check all that apply):
   ______ Reference ______ Cataloging ______ Systems ______ Acquisitions ______ Circulation
   ______ Collection Development ____________________________________________ (Other)

2. Type of library:
   ______ Special ______ School ______ Public ______ Academic ____________________________________________ (Other)

 Library Name: __________________________________________________________

3. Does your library... (please answer yes or no; if an item is "yes", please respond to subquestions):
   ______ catalog aggregates (as a single entry, e.g. "JSTOR") in your OPAC.
     ______ always ______ sometimes (explain:__________________________________________________________)
     ______ catalog each journal title within an aggregate in your OPAC
     ______ always ______ sometimes (explain:__________________________________________________________)
     ______ link from the OPAC to the e-resource

(I’d characterize my response to question 3 as: ______ I’m certain ______ I’m pretty sure ______ I think so)

4. ______ Does your library have a web page separate from your OPAC that lists and links to the e-resources (please answer yes or no). If YES:
   ______ list and link aggregates from an electronic resources web page (e.g.: "JSTOR")
     ______ always ______ sometimes (explain:__________________________________________________________)
     ______ list and link each title within an aggregate from an electronic resources web page
     ______ always ______ sometimes (explain:__________________________________________________________)

(I’d characterize my response to question 4 as: ______ I’m certain ______ I’m pretty sure ______ I think so)

5. Decisions about displaying or cataloging e-resources are made by:
   ______ an individual (title:__________________________________________________________)
   ______ a committee(s) (title(s): ______________________________________________________)
   ______ other (__________________________________________________________)

6. From my perspective, the greatest problem with aggregates is:
